

African Oil Market Fundamentals

7-9 October 2025 - Abuja, Nigeria

Major changes are sweeping across West Africa: exchange rate policy changes, subsidy withdrawal, specification changes and broader liberalisation. This course provides essential training to adapt to this new oil product trading environment. New opportunities are appearing – enhance your skillset to take advantage.

The Course will cover:

Global crude and products market fundamentals

- Crude and products markets overview: supply, demand, flows
- Supply and demand economics & market drivers
- Understanding the market players & their roles
- International trading of crude oil and crude evaluation
- A non-technical introduction to refining
- A Trader's view of refining
- Quality differences around the globe

African price structures in an international context

- Pricing in oil markets and price discovery
- Pricing agencies
- Benchmarks
- Contract types, incoterms and issues
 - Spot / Term
 - Spot / Forward
 - FOB / CIF
- Fixed versus floating
- African pricing: benchmarks & differentials
- Moving the oil (the shipping process)
- Vessel types and standards
- Understanding and calculating freight costs (Worldscale, Flat Rates, AFRA)
- Price structures & regulatory distortions
- Currency dynamics
- Import parity pricing vs downstream pricing

Course consultant:

Jeremy Parker

Senior consultant
